Final Results

RTL Top Level Output File Name    : keypad4\_4.ngr

Top Level Output File Name        : keypad4\_4

Output Format                        : NGC

Optimization Goal                   : Speed

Keep Hierarchy                      : No

Design Statistics

# IOs                                 : 25

Cell Usage :

# BELS                                : 209

#    GND                              : 1

#    INV                               : 4

#    LUT1                             : 24

#    LUT2                             : 26

#    LUT3                             : 30

#    LUT4                             : 42

#    MUXCY                           : 31

#    MUXF5                           : 18

#    MUXF6                           : 7

#    VCC                               : 1

#	XORCY	: 25
#	FlipFlops/Latches	: 44
#	FDC	: 32
#	FDE	: 12
#	Clock Buffers	: 1
#	BUFGP	: 1
#	IO Buffers	: 24
#	IBUF	: 9
#	OBUF	: 15
